Work Experience

Quality Software

QuintoAndar | November 2018 – Present

- Perform humanized tests to guarantee our apps meets high UI and usability standards
- Perform exploratory testing to find issues before product development and before product release.
- Engage in automation: either by directly implementing tests or helping defining which flows should be automated

Android Developer

Jera | Jan 2018 – Oct 2018

- Build native Android apps in Java and Kotlin
- Building Applications on MVP and MVVM Architectures
- Build Modular Applications with Dagger and Rx

Quality Software

Jera | Jun 2017 – Dec 2017

- Assists in the creation and development of requirements and user stories
- Define the appropriate tests required and any associated test data
- Conduct manual and automated interface tests
