Work Experience

Quality Software Engineer

Zé Delivery | Nov 2021 - Present

- Ensure the good distribution of tests among the test pyramid
- Reduce the number of flaky tests and increase the reliability of end-to-end tests
- Ensuring good practices in the development of new tests

Quality Software

QuintoAndar | Nov 2018 - Nov 2021

- Perform humanized tests to guarantee our apps meets high UI, usability standards, and accessibility
- Perform exploratory testing to find issues before product development and before product release.
- Engage in automation: either by directly implementing tests or helping defining which flows should be automated
- Defining metrics and monitoring the health and quality of services in production, ensuring performance, safety, and scalability

Android Developer

Jera | Jan 2018 - Oct 2018

- Build native Android apps in Java and Kotlin
- Building Applications on MVP and MVVM Architectures
- Build Modular Applications with Dagger and Rx

Quality Software

Jera | Jun 2017 - Dec 2017

- Assists in the creation and development of requirements and user stories
- Define the appropriate tests required and any associated test data
- Conduct manual and automated interface tests
